Joseph Prince

CSPO | CSM | CSD | Harnessing the power of web technologies to solve real world problems.

Denver, Colorado, United States

Summary

Joseph Prince is the Chief Technology Officer at Sports Thread, where he leads the company's technology strategy, platform development, and engineering execution. Joseph oversees the continued growth and scalability of the Sports Thread platform, helping build reliable technology that supports the company's operations, product vision, and long-term expansion. He plays an important role in strengthening the company's technical foundation, improving efficiency, and advancing the systems that power Sports Thread.

Experience

Sports Thread Inc.

4 years 5 months

Chief Technical Officer

January 2026 - Present (5 months)

Denver, Colorado, United States

Chief Technical Officer at Sports Thread, serving as a hands-on technical leader responsible for building and scaling the company's technology platform. I actively contribute code while setting technical direction and engineering best practices.

Design, develop, test, deploy, and maintain core platform features

Write, review, and improve production code; refactor and modernize existing systems

Troubleshoot and resolve production and customer-impacting issues

Own and evolve platform architecture for scalability, reliability, and security

Translate business requirements into technical solutions and realistic delivery timelines

Maintain documentation/runbooks and support operational/on-call needs as required

Vice President of Software Development
November 2023 - January 2026 (2 years 3 months)
Denver, Colorado, United States

Provided strategic direction and technical leadership for software development initiatives

Set and enforced code standards, development methodologies, and best practices

Designed scalable, secure, and maintainable software architectures that support long-term growth and evolution

Evaluated and recommended technologies, frameworks, and tools to enhance development efficiency and product quality

Developed Internal tools to optimize the teams' efficiency

Developed customer-facing tools to assist with day-to-day operations

Director of Software Engineering
June 2022 - November 2023 (1 year 6 months)
Denver, Colorado, United States

Provided strategic direction and technical leadership for software development initiatives

Set and enforced code standards, development methodologies, and best practices

Designed scalable, secure, and maintainable software architectures that support long-term growth and evolution

Evaluated and recommended technologies, frameworks, and tools to enhance development efficiency and product quality

Developed Internal tools to optimize the teams' efficiency

Developed customer-facing tools to assist with day-to-day operations
